Dear Colleagues,

King Abdulaziz University is one of the top leading universities in the Middle East supporting research awareness and its benefits in the medical field. Medical research is one of the main contributions in developing this prodigious country we live in.

The higher administration of King Abdulaziz University had collaborated with Faculty of Medicine and College of Medicine providing innumerable strategies in supporting its staff and students in the quality and areas of medical research.

There are numerous highlights received by King Abdulaziz University as placing First in the MENA Region, advancement in the university’s world ranking, and in medical research increasing the number of publications.

With accordance of vision 2030, medical and scientific research plays an important role in contributing in the overall health realms and scientific advancement in the Kingdom of Saudi Arabia.
